The Center for Biomedical Engineering Research (CBER) and the Department of Mechanical Engineering are offering *summer undergraduate research fellowships* for 2013.

- We are seeking *eight* high quality undergraduate researchers to be advised by CBER faculty (see [www.cber.udel.edu](http://www.cber.udel.edu)) at the University of Delaware.
- During the summer, we will coordinate group activities (some exclusive to CBER, others in partnership with the Science and Engineering Scholars Program. Examples include: lab tours, seminars on lab procedures, human subjects training, picnic, etc.
- All students will be required to participate in the *Undergraduate Research Symposium* in August, 2013. Typically this involves a poster presentation.

**Applications must include:**

- 250 words describing your proposed research project, written by you, (see guidelines)
- 250 words on why undergraduate research is important to your career goals.
- Letter of Support from your intended summer Faculty Sponsor, (see [www.cber.udel.edu](http://www.cber.udel.edu))

Submit your application marked “CBER fellowship” to Elaine Nelson (nelson@udel.edu).

The deadline is *March 1, 2013*.
